Des nouvelles de la flottille de la liberté en route pour Gaza (juillet 2018)

- Campagne "Un bateau pour Gaza" - Campagne 2018 - Flottille de la Liberté -

Date de mise en ligne : Thursday 26 July 2018

Copyright © UJFP - All rights reserved

A recent update from #AlAwda (24 July) said: "We have now sailed 5,000 nautical miles, from Bergen towards Gaza, with solidarity and medical supplies. The spirit on board is high.

It is hard to understand how our politicians can stay passive when we see all the great support from ordinary people, wanting to help other human beings. People who put human rights above political decisions.

Please help to put pressure on our elected representatives, put an end to the illegal Israeli blockade, and let the Freedom Flotilla pass through. Greetings from #AlAwda (The Return), 600 nautical miles from breaking the blockade."

Thank you for your support for the current or previous missions of the Freedom Flotilla Coalition.

As you probably know, three boats from the Freedom Flotilla Coalition's 'Just Future for Palestine' mission are currently on the Mediterranean Sea travelling to Gaza after having sailed for more than two months and having visited more than 20 European ports.

Five times, boats have successfully broken the blockade and reached Gaza (in 2008) and we maintain the hope that it can be done again with this Flotilla. The ever-increasing urgency on the ground in Gaza is finally getting the world's attention - hence we are also bringing medical supplies - and we are determined that this is the year the illegal blockade will finally be broken.

But to do this we need our amazing network of passionate people to amplify the work of this year's participants, crew and supporters in and out of ports that we have visited and passed through, as well as across the world.

You can help by:

1. Using the latest news from our website: jfp.freedomflotilla.org/news as a tool to contact your local, regional, or national media. Additional resources/information available at: jfp.freedomflotilla.org/ including 'About us', 'FAQ', 'Participants' and 'Follow Boats'.
2. Contacting your elected representatives and asking them to contact the Israeli Government to demand our unarmed boats, containing 13,000 Euros worth of urgently needed medical supplies (including gauze) can travel without interference to Gaza, as a first step to completely ending the blockade and restoring the right of freedom of movement, so long denied to Palestinians.
3. Following us and sharing our messages widely
Facebook - FreedomFlotillaCoalition
Twitter - @GazaFFlotilla
and encouraging others to spread the word using hashtags #ShiptoGaza #FreedomFlotilla #Gauze4Gaza and #CountdownToGaza. You can also share videos and pictures - there are many on our Facebook page, using those same tags and if a new FB post - @freedomflotillacoalition

4. Hold an activity on or around Saturday 28 July, which is close to our estimated approach to Gaza, to demand that our boats can travel safely to Gaza and that the blockade be ended permanently. Whether you have five friends with flags and banners or five thousand, take a picture and share it with #CountdownToGaza. Make a short video, tweet it with #CountdownToGaza and share it on Facebook (see event below!).

Thanks for everything that you have done and that you can do now to ensure that the voices of our participants and the Palestinian people of Gaza are heard, especially as the Freedom Flotilla mission reaches a critical stage.

Please share this message widely, and join, repost, share and invite to this event on Facebook: CountdownToGaza : <https://www.facebook.com/events/303569440219357/>

Together we can help end the illegal Israeli blockade of Gaza!
